SUMMARY

Results-driven Mid level Developer with proven expertise in building scalable APIs, secure system architectures, and seamless user interfaces. Experienced in designing authentication and verification workflows, implementing data-driven services, and creating responsive frontend applications with modern frameworks. Adept at collaborating in cross-functional teams to deliver reliable, user-focused solutions at scale.

WORK EXPERIENCE

Backend Developer(Intern) - Sync360

Mar 2025 - Sep 2025

- Designed and maintained core backend services using Django REST Framework, supporting key features like user profiles, bookings, and service-matching - leading to faster access to services and a smoother user experience.
- Implemented secure authentication and role-based access features, improving data safety and laying groundwork for KYC workflows.
- Built and versioned clean, reliable APIs with proper validation and structured error handling, which reduced integration issues and improved collaboration with frontend developers.
- Optimized database performance through query tuning and data access patterns significantly improving response times and reducing server load.
- Collaborated closely with frontend teams to align API structure with UI needs, enabling quicker feature rollouts and minimizing blockers.

Software Developer & Co founder - TrybeNode

Dec 2024 - Pesent

- Co-founded Trybe Node, a thriving tech community focused on fostering collaboration and innovation among tech-driven individuals.
- Participated in regular code reviews, design discussions, and stand-ups to promote code quality, knowledge sharing, and agile collaboration.
- Contributed to the technical implementation of a community marketplace platform to facilitate service exchange among campus-based tech talents.
- Integrated cloud services to enhance media handling and communication features across TrybeNode platforms.

EDUCATION

Bachelor of Science in Software Engineering

Sep 2022 - July 2026

Lead City University, Ibadan

TECHNICAL SKILLS

Frontend: React.js, Next.js, Tailwind CSS, Responsive UI/UX Development

Backend & Databases: Django REST Framework, FastAPI, NodeJS, PostgreSQL, MongoDB

Cloud & DevOps: REST API Design, Version Control (Git/GitHub), Security & Validation, Performance Tuning, Docker, AWS

Languages: English (Proficient)
